

شركة الحياة البرية للتنمية والاستثمار (وادي)
Wildlife Association For Dev. & Inv. (Wadi.)

Date: Feb14th 2014

To whom it may concern

Wildlife Association For Dev & Investment (Wadi Co.) engaged the service of GFC (Green Focus and Consultancy) to provide and install 120 KWH per day, PV system- On Grid on the roof of their Hotel – Desert Lodge Resort – Dakhla Oasis – New Valley-, Egypt in 2014 and that their execution and installation has been professionally done in time and up to the standards and specifications required.

Prior to engaging GFC we undertook a thorough HSEQ audit of their business to ensure that they could provide the services required and had sufficient experience to be able to deliver promised service. During the execution of the installation we found Green Focus and Consultancy to be highly professional and very experienced, offering a standard of service required to meet or exceed our HSEQ Management System.

GFC team has demonstrated a high sense of commitment and professionalism and we do not hesitate to recommend GFC to any company or individual requiring to provide and install PV system anywhere, whether in Egypt or outside of Egypt.

We would have no hesitation to engaging GFC Company for further work.

If you required any further information please contact me at the number listed below.

Yours Faithfully,

K. Etman
